

product solution

Diamond Chase Roller RCLF Series

The Diamond Chase RCLF is a large format roller frame. There are three models for frames between 5 and 20 feet in length and they are manufactured with the welded end plug and roller support system.

FEATURES

- Manually stretch screens reliably and easily
- Maintain high uniform mesh tension
- +/- 1 N/cm accuracy in tensioning
- Yields consistent, precise prints
- Less ink usage, better ink flow
- Register multi-color designs easier while holding registration
- All metal construction
- Quick and easy double nylon fabric locking system
