DOUTHITT Model DME Screenmaker

The DOUTHITT Model DME is a direct method screenmaker that includes a complete metal halide printing lamp assembly as well as a DOUTHITT Model MAGIC 83 10 channel memory combination light integrator and digital timer.

With the Model DME, the integrated DOUTHITT “Deep Draw” Black vacuum blanket means there is practically no limit to the height of the screen. Under vacuum, the blanket swiftly molds itself to the shape of the screen frame and holds the positive in perfect contact.

FEATURES

- Glass down design—simply load, close, and expose
- All heavy gauge welded steel construction
- Heavy duty vacuum pump and motor
- Included Model MAGIC 83 Integrator comes with vacuum time delay for one-button automation
- Vacuum relief bleeder valve
- Effortless raising and lowering of the blanket frame
- Bottom and back are left open to facilitate cooling
