DOUTHITT Model DMH Screenmaker

The DOUTHITT Model DMH is a heavy duty self-contained screenmaker designed to provide the optimum loading height for large format screens. It enables completely automated operation, with vacuum delay and light exposure activated by closing the frame.

The Model DMH features a 5,000 watt metal halide printing lamp assembly complete with special exhaust system. Additionally, finger tip control of the blanket frame is achieved by an exclusive patented spring and fulcrum system that also clamps automatically. The integrated DOUTHITT “Deep Draw” Black blanket allows for virtually unlimited screen heights, and is designed to hold positives in perfect contact.

FEATURES

- Automated start and cancel
- Easy loading height
- Guaranteed coverage
- Reduced floor space
- Self-contained light source
- Glass-down design
- Heavy duty vacuum pump and motor
- Cooling fans to prevent excessive heat build up
- Heavy gauge metal construction
