

# LOW BLEED WHITE INK

DYNAPRINT Low Bleed White is a phthalate-free printing base that helps mitigate dye migration and helps achieve an elastic, soft touch and excellent coverage in textile printing.

#### **ADVANTAGES**

- Provides excellent, elastic white coverage for underbases
- When used correctly, does not dry on screens during printing
- Does not contain phthalates (NOTE: Contains PVC)

#### **APPLICATIONS**

 Ideal for 50/50 (50% cotton / 50% polyester) and Tri-blend (cotton / polyester / rayon) fabrics

#### USAGE

- Can be combined with ink tints/pigments
- Stir well before using. Do not use any additives not recommended by manufacturer.
- Clean screen with appropriate screen wash after use

### STORAGE & SHELF LIFE

- Keep containers dry and tightly closed. Store in a well-ventilated place between 41°F and 86°F (5°C 30°C).
- Use within 2 years of the production date
