

product solution

# Grünig G-PREP 370 Frame Cleaning Machine

The G-PREP 370 is an automatic screen frame cleaner that guarantees professional cleaning with maximum speed and safety while eliminating wear on the frame itself. It effectively and automatically removes glue residue using extremely high pressure water. A frame surface cleaned by the G-PREP 370 guarantees an optimal bond between the mesh and frame.

## FEATURES

- User friendly
- Compact construction
- Maximum screen format 55" x 102" (1400 x 2600 mm)
- Simple cleaning
