Grünig G-WASH 106 “Plug & Wash” Developing Machine

The G-WASH 106 is an automatic screen cleaning machine that features Grünig’s latest “Plug & Wash” technology. A built-in touch screen provides easy access to up to 50 different programmable routines. Each automated process includes settings for washing time, spray carriage speed, and washing pressure.

Space-saving, compact design and rugged, low-maintenance construction make this an excellent entry to screen making automation.

FEATURES

- Maximum screen format 55" x 71" (1400 x 1800 mm)
- Electronically adjustable washing pressure from 5-12 Bar
- Powerful pump to ensure optional development
- Compact construction easily fits through shop doors
- Low maintenance and user-friendly
- Integrated spray hose
- Easily accessible V2A steel nozzles designed to last and provide ease of maintenance
