Newman ST1E Tension Meter

The ST1E Meter is a mechanical tension meter with stainless steel hardened gears, shock-proof industrial grade internal gear movement and all jewel sapphire bearings. Most other mechanical meters have non-compound, softer brass gears and bushing, greatly reducing their shock-resistance, long term accuracy, and life.

The crystal is shatterproof and curved to avoid glare. The heavy-duty protective aluminum housing makes for an incredibly durable meter. Each Newman ST Tension Meter has been calibrated with weights and instruments that are traceable to the NIST.

FEATURES

- Available in kilograms/meter
- Direct reading in newtons/cm
- ± 1 percent accuracy
