# PMI Full Adhesive Tape

PMI Full Adhesive tape features the same adhesive and backing as PMI Split Tape, allowing for a clean removal. The only difference is that it does not include the blue adhesive-free areas.

Full Adhesive tape is ideal for taping further into the screen, taping the print side of screens as a block out tape, and masking the inside of wood frames.

## FEATURES

- Won't tear, break, shred or leave residue
- Stays down when you want it to
- Used by industry-leading screen printers

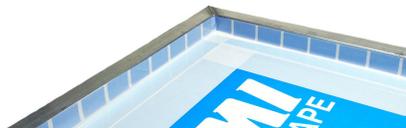

## PRODUCT OPTIONS

### Width

2, 3, 4 in
