Polyken 767UV UV-Resistant Screen Block Duct Tape

Polyken 767UV is a solvent and UV-resistant polyethylene coated cloth tape. Ideal for use by screen printers for protecting screens and screen blocking, other uses include waterproof packaging and sealing applications.

767UV is an excellent substitute for Polyken 801, now discontinued.

FEATURES

- UV resistance equivalent to 28 days of sun exposure
- Solvent-resistant adhesive makes for clean removal from frames
- Low elongation for consistent surface bond
