

RhinoClean™

PRODUCT DATA SHEET

ARP2000™ DeBonder / Adhesive Remover

Description

- Specially formulated to remove adhesive from hands, fingers and other surfaces
- Effectively softens the adhesive for removal.

Directions

1. Apply ARP2000™ directly to fingers or other surface that you want to remove the adhesive from.
2. Let it soak for a few minutes.
3. Slowly try to pry fingers from each other or surface, do not tug as this will most likely cause some skin removal.
4. If necessary, reapply the adhesive remover repeat removal instructions.

ALWAYS WEAR PROTECTIVE CLOTHING

It is the responsibility of the screen printer to test the product; review the MSDS prior to use to evaluate whether or not the product is correct for the application intended.
