RhinoTech DG 2200™ Degreaser

DG 2200 is a biodegradable degreaser. It is a non-abrasive fabric treatment that acts like a wetting agent for use on all synthetic and wire screen mesh. DG 2200 provides an even sheeting of water for complete uniform stencil adhesion.

FEATURES

- Improves film lamination and bonding of direct photo emulsions
- Use before each stencil preparation
- Can be used alone or mixed 1:4 with water
