

RhinoMite™ Two-Part Adhesive Family

RhinoMite™ Adhesive systems offer high tensile strength, impact and solvent resistance. Both dry in approximately 8 -15 minutes. Once mixed, they have a pot life of two to three + days if stored in a sealed container to extend usage. Each unit is shipped as a kit with catalyst.

| RMA 3300 Thick | |
|-------------------------|----------------------|
| Weight Solids: | 19% |
| Viscosity : | 700 - 800 cPs |
| Weight / Gallon: | 8.9 lbs. |
