

product solution

Shur-Loc® "E-Z" Stretcher Tensioning System

The Shur-Loc "E-Z" Stretcher is a heavy duty tool used to tension Shur-Loc's "E-Z" Frames. The safety bar that restrains the screen during the stretching process is integrated into the device itself, making for simpler setup and ease of use over the "E-Z" Frame Tensioning Tool.

FEATURES

- Quick and easy to use
- Simple installation and setup
- Durable all metal construction
- Easier to use than simpler "E-Z" Frame Tensioning Tool
